STORY OF CHESTNUT C

Chestnut C was born in 2019 and became one of the most professional level budget manual coffee grinders. So far it has been sold to more than 50 countries and regions, widely praised and reported.

PRECAUTIONS

1. The device is for grinding coffee beans only. DO NOT grind other material.
2. It's recommended to clean it with a brush.DO NOT wash it with water.
3. Be careful of the sharp metal burrs.
4. Keep kids from using it.
5. Keep it in a cool and dry place.
6. It's not recommended that customers disassemble or replace any part of it.If you have any special requirement, kindly operate with the advice from related professional persons.
7. Warranty is not available if you are against the above remarks
8. If you use the grinder to grind coffee beans, the device is not refundable or returnable unless there is any quality problem. Because burrs may get damaged after use.
